

ADHILA K S

Palakkad, Kerala, India — +91 8078926771 — adhilasyedmuhammed@gmail.com

PROFESSIONAL SUMMARY

MCA graduate with a B.Sc. in Physics, experienced in full-stack development using PHP, Python, Flutter, and the MERN stack, with MySQL, MongoDB, and Supabase. Skilled in REST APIs, OCR integration, and machine learning, with hands-on project and internship experience across healthcare, e-commerce, and education domains.

SKILLS

Programming: Python, PHP, SQL, HTML, CSS, JavaScript

Frameworks & Tools: Django, XAMPP, Visual Studio Code, Bootstrap, Flutter, NestJS, React, Node.js, Express.js

Technical Skills: REST APIs, OCR Integration, Responsive Web Design, AI Chatbot Development, Machine Learning, Google Translate API Integration

Databases: MySQL, MongoDB, Supabase

Soft Skills: Problem-Solving, Analytical Thinking, Team Collaboration, Adaptability, Time Management

Productivity: MS Office (Word, Excel, PowerPoint)

EDUCATION

Master of Computer Application

2024 – 2026

Nehru College of Engineering and Research Centre, Thrissur — KTU

Bachelor of Physics

2021 – 2024

NSS College, Nenmara — Calicut University

EXPERIENCE

Software Development Intern

DataHex, Kozhikode

- Contributed to the development of Flutter-based mobile and web applications with NestJS and Supabase backend integration.
- Carried out QA testing and bug tracking on internal products such as CaptureMeet, preparing detailed issue reports.
- Supported UI improvements and responsiveness checks for company web applications.
- Built practical experience with Git/GitHub workflows while collaborating within a team environment.

PROJECTS

VITA VAULT AI: THE DIGITAL LIFE GUARD

Tech Stack: PHP, MySQL, Python, HTML5, CSS3, Bootstrap, Google Translate API

- Developed a centralized Smart Health Repository integrating multi-stakeholder modules with OCR-based digitisation, emergency Health ID access, and AI-powered chatbot support.

DISK FAILURE PREDICTION SYSTEM

Tech Stack: Python, Machine Learning, SMART Data Analysis

- Developed an ML-powered system to analyse SMART data from multiple client nodes for predictive disk failure detection.

ALIF ONLINE MORAL SCHOOL – SCHOOL MANAGEMENT APP

Tech Stack: Flutter, NestJS, Supabase

- Worked on a Flutter-based mobile/web application with NestJS and Supabase backend, covering Student, Parent, Teacher, and Admin modules.
- Helped set up a centralized theming system and a minimal, consistent UI across app screens.
- Assisted in structuring the database (14+ tables) with role-based access control for secure data handling.

VOGUE PLAZA – E-COMMERCE WEBSITE

Tech Stack: MERN Stack (MongoDB, Express.js, React, Node.js)

- Built a full-stack fashion e-commerce website with product browsing, cart, and checkout functionality.
- Used MongoDB for data storage and Express.js/Node.js to power the backend APIs.
- Designed a responsive React-based frontend for a smooth shopping experience across devices.

GREEN SYNTHESIS OF SILVER NANOPARTICLES

- Synthesised silver nanoparticles using Ziziphus oenopia fruit extract as an eco-friendly, cost-effective alternative to chemical methods.

CERTIFICATIONS

NPTEL: Database Management System

Full Stack Development with Python & Django: Ryphira Private Limited Official

PUBLICATIONS

International Journal of Engineering and Techniques — IJET

NSS VOLUNTEER

- Coordinated activities, meetings, and volunteer teams.
- Led awareness drives and social service activities.
